FOREWORD

We are doing our part to stimulate business activity by passing every possible price advantage to our customers. And this is not being done at a sacrifice in quality for never were we able to offer a finer lot of bulbs. All through this Spring list you will find quotations below those we have been able to make for many years and in a large number of the items the prices are the lowest ever quoted.

We again urge our customers to turn away from some of the older varieties which have been popular in the past to the long new list of finer things which have been developed in the past few years and which are now available in sufficient quantities to justify lower prices and permit plantings on a liberal scale. Only those with the best flowers can hope to operate profitably in these times and these best flowers can only be produced by a selection of the right varieties.

We are constantly broadening our line and thus maintaining our position as the foremost suppliers of the most complete line of bulbs and kindred items in the country. We are ever on the lookout for new or old neglected bulbous items which offer commercial possibilities and these are being added to our list from line to time.

We ake the opportunity of thanking you for your patronage in the past and hope that we may continue to enjoy your good will.

BUY RYNVELD'S BULBS AND BE SURE OF QUALITY, SIZE, HEALTH GUARANTEED TO GIVE SATISFACTION

Terms

5% off for cash with order.

2% off for payment within 10 days.

All bills payable net 60 days.

Unless credit is established with us please give references and allow us sufficient time for checking.

All quotations herein are for shipment F. O. B. New York.

For the convenience of our Southern customers we can make shipment of Florida grown stock direct from growing station at Jacksonville, Fla.

Prices quoted herein are subject in all cases to maintenance of present tariff schedule on the respective item and any change made therein before delivery automatically cancels the within quoted prices.

Display Cards for Your Counter Trade

To those who retail bulbs we offer free of charge display card reproductions in natural colors. It is important that you have these as they are of considerable assistance in increasing sales and obtaining new customers.

SERVICE

We maintain offices and warehouses at New York and California and carry a complete line of Fall bulbs in stock for our customers' requirements.

Wire orders are filled the same day as received by us. All others within 48 hours of receipt. Your inquiries are welcomed and we are pleased to make suggestions as to culture or selection when requested.

We have a representative in your territory. Let us have him call on you.

We Guarantee

That all bulbs leave our farm or warehouse in good condition, packed in boxes sufficiently strong and substantially secure to insure delivery in good order but we do not assume risks in transit.

That all stock is true to name as represented.

That all stock is inspected and found to be sound and free from disease when shipped.

We Do Not Guarantee

Productivity – The actual growing of flowers is subject to many conditions over which we exercise no control. We allow five days after delivery for inspection by the purchaser and cannot entertain complaints made after the expiration of this period. All requests for adjustment must be made in writing to our main office at 149-155 West 24th Street, New York City, and we assume no liability for those made verbally to our salesmen or in any other way.

PRICES

Allow us to sound a word of warning to those who contemplate placing orders based upon competitive quotations. During a period of declining prices such as we have had recently, competition has developed into a frenzy of price cutting with the inevitable result that quality is sacrificed for the sake of price. Skimping on prices when purchasing bulbs invariably results in depreciated returns at blooming time.

We maintain that quality for quality our prices are lower than those quoted by others not interested in maintaining the high standard which we have set up.

SQUARE DEAL

To those who have dealt with us for years we need not repeat our policy of square dealing. To our new customers we desire to say that at all times we are anxious to adjust differences. Occasionally, mistakes occur and we receive requests for adjustments. Many are not our fault but our policy of "a square deal for the Florist" will not allow us to overlook them.

Rynveld's Superior Gladiolus

FROM OUR LONG ISLAND FARMS

There is a vast difference in the quality of Gladiolus bulbs that is not apparent by an examination of the dry bulbs and one must be familiar with the conditions under which they are grown before determinations can be made of the performing value. Our bulbs—for instance—are all grown from young stocks which is a very important factor in the developing of high crown bulbs. We also treat every bulb before planting which keep the stocks healthy and stimulates the growth. Furthermore we do not cut any flowers whatever (except to remove the seeding pods) and this has a twofold advantage in that it permits the new bulbs to gain full maturing advantage of the whole plant and enables us to check up and rogue out any bulbs that may be mixed. Such quality, plus reasonable prices and a well balanced list of varieties of proven merit, accounts for our rapidly increasing Gladiolus business.

Giant_Flowering Hybrid Amaryllis

In our constant effort to seek out such bulbous items as seem to offer the greatest promise of commercial value, we have recently undertaken the extensive culture and development of a special strain of Amaryllis and now have, at our Florida farm, the most outstanding collection ever grown in this Country. Few flowers rival the Amaryllis in grandeur, range of color, or simplicity of culture, and it remains only for the bulbs to be available in large quantities to put them among our most popular bulbous flowers. The stock that we are growing is a selection of the finest range of colors produced by renowned specialists all over the world.

AMARYLLIS CULTURE - Amaryllis bulbs are ready for delivery early in November, but we do not recommend planting them until the latter part of January when the flower buds will be showing. Plant in five or six inch pots and water sparingly until root growth develops. After flowering, the bulbs maintain active growth and about the middle of October watering must cease and the bulbs dried off by laying the pots on their sides under a greenhouse bench or in a dry cellar. Early in February the bulbs will show new flower stems and the pots should then be watered and brought into the light, a temperature of 50 degrees is best at the start, and this can be increased to 60 degrees as the flower stems develop. Applications of weak manure twice a week at this stage will strengthen the plants and increase size of flower. Slightly larger pots will be necessary as the bulbs develop size.

GIANT HYBRID AMARYLLIS

A good strain producing large size flowers, but only obtainable in mixed colors.

					P	er. Doz.	Per 100
21	/2	to 3	inches	in	diameter	\$2.25	\$16.00
3	to	$3^{1/2}$	inches	in	diameter	. 3.25	25.00

GIANT AMARYLLIS "RYNVELDI STRAIN" The World's Choicest

A re-selected strain of the very largest flowering sorts, in separate colors - pure white, light pink, dark pink, scarlet, red, salmon.

3 in. in diameter, Per Dozen \$7.00 Per 100 \$50.00

AMARYLLIS EQUESTRE (Barbados Lily)

A free flowering flame red variety that is much admired by all. Makes a fine pot plant and is very valuable for outside planting in the South where it propagates freely.

Per 1000...\$8.00 Per 100.....

AMARYLLIS HALLII (Lycoris Squamageri)

A hardy Amaryllis. Produces attractive green foliage early in Spring, foliage later dying down and about a month thereafter flower stalks appear, growing about 3 feet high with an umbel of large Lily shaped delicate pink flowers shaded with clear blue.

..\$75.00 Per 100..... ..\$10.00 Per Dozen...

AMARYLLIS BELLADONNA (Belladonna Lily)

One of the best of cool house flowering bulbs. Large trumpet shaped flowers, a rosy red color. We can make immediate delivery on these bulbs as they require to be potted early for best results.

Per 1000..... ..\$80.00 Per 100.... ..\$8.50

GIANT HYBRID AMARYLLIS

AMARYLLIS HEADQUARTERS

Year after year, Rynveld's Choice Amaryllis find an increasing market.

AMARYLLIS JOHNSONI (St. Joseph Lily)

Deep dull red with white stripes. A very profuse bloomer and withstands much abuse. Very free flowering.

Per 100.....\$20.00 Per 1000... ..\$175.00

Crinums

Large, showy flowering bulbs, closely allied to Amaryllis and distinguished by the longer flower. Crinums are ornamental summer plants, the strong foliage producing a tropical effect. They are excellent for planting in conspicuous positions on terraces or lawns, or in corners where flowers are wanted to combine with architecture or statuary for summer effect.

CRINUM AMERICANUM

Blooms in Spring and Summer, with creamy white flowers. Is perfectly hardy in the Southern States and will often bloom in the Winter.

> Per 100. ...\$8.50 Per 1000.. \$80.00

CRINUM FIMBRIATULUM

One of the most popular of the Crinums. Pure white with distinct red stripes through center of petals.

> Per 100....\$8.50 Per 1000..... ...\$80.00

CRINUM GIGANTEUM

Very large flowering type, pure white, it makes an excellent greenhouse plant, or will do very well outdoors in the Summer.

Per 100.....\$8.50

Per 1000.....\$80.00

CRINUM KIRKII

Very outstanding, pure white, bright red band down the center of each petal.

Per 100......\$11.00

Per 1000.....\$100.00

CRINUM POWELLII ALBUM

Very valuable for outdoor planting. Flower stalk well placed above the foliage. Flowers pure white.

Per 100......\$16.00

Per 1000.....\$150.00

CRINUM SANDERIANUM

Flowers white, keeled with bright red, deeper red on the outside. Flower stems 3 feet high, six flowers in the umbel.

Per 100

\$16.00

Per 1000.....\$150.00

Leading Commercial Cutflower Dahlias

TORQUAY GEM

While Dahlias have long been garden favorites it is only within the past few years that they have moved into a position of prominence among our most important seasonal cut-flowers. This past season saw them recognized as never before and several times they completely dominated several of our big wholesale markets and attained prices that were never heard of before and which made many Chrysanthemum growers sit up and take notice. Dahlias are now definitely established as among our great outdoor bulbous cut-flower crops.

The big contributing factor to this new popularity is undoubtedly the fine list of new varieties that has been introduced in recent years but their distribution out of the hands of a few specialists into many thousands of commercial cut-flower growers all over the country has also aided materially.

Several years ago we undertook the marketing of a select list of established commer-

cial kinds and our large volume enabled us to sell them at lower prices than which they had been generally offered. By rigidly adhering to our policy of limiting the list to those kinds which had actually established themselves in the big markets our sales developed rapidly. This year we have added more varieties and recent introductions from abroad and they all possess the same exacting qualities.

Tuberous Rooted Begonias and Gloxinias

With a dependable supply of excellent stock now being produced by one of the leading growers in California, these bulbs are once again assuming their old popularity. In addition to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded location. For an early showing it is desirable to start the Bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state.

Bleeding Hearts

(Dielytra Spectabilis)

We have been advocating the more extensive use of this beautiful decorative plant for several years and those of our customers who have availed themselves of our suggestion have profited. It is used extensively as an early Spring pot plant and is a fine specialty for St. Valentine's Day. The cut sprays are also useful. It is perfectly hardy and makes a splendid showing in the perennial border or when planted with early bulb stocks.

MONTBRETIAS

We have been paying special attention to these beautiful bulbous plants and have now developed nice stocks in several fine varieties covering the usual range of colors. We are sure that florists will not go wrong in making a planting, for their gracefulness permits of lighter decorations than possible with Gladiolus. Many of the varieties produce three and four flower stems to each bulb, thus reducing the cost per flower to a nominal sum.
